

Hennepin Healthcare is a comprehensive healthcare system that includes HCMC, a 473-bed academic medical center, a large outpatient Clinic & Specialty Center, and a network of neighborhood clinics located in Minneapolis and across Hennepin County.

HCMC is:

- A nationally recognized Level I Adult and Pediatric Trauma Center with many recognized programs and specialties
- An essential teaching hospital for providers who go on to practice throughout the state
- A safety net hospital providing care for low-income, the uninsured and vulnerable populations
- A major employer and economic engine in downtown Minneapolis
