

KNOW THE FACTS

# COVID-19 VACCINE

- FACT** COVID-19 vaccines **do not alter** your DNA
- FACT** Vaccines **will not give you** COVID-19; they carry no risk of causing disease in the person vaccinated.
- FACT** The coronavirus **is changing**. But vaccines are designed to help the body recognize it based on multiple parts of the virus.
- FACT** The COVID-19 vaccines **do not contain** a live or whole coronavirus, microchips, tracer technology, fetal tissue, stem cells, mercury, aluminum, luciferase, the Mark of the Beast, pork products or preservatives
- FACT** COVID-19 vaccines **can cause** a short fever, headache, fatigue, sore arm or chills, especially after the second dose. Other reactions are extremely rare.
- FACT** People who have gotten sick with COVID-19 **may still benefit** from getting vaccinated
- FACT** People who are pregnant, breastfeeding or want to become pregnant **can get** vaccinated against COVID-19. But they should talk to their medical provider.
- FACT** Everyone **must continue** taking steps to protect themselves and others from COVID-19 like wearing a mask, keeping a safe distance from others, and washing our hands.
- FACT** The COVID-19 vaccine **can end** the pandemic much sooner, and with fewer lives lost. This could especially help people in the highest risk groups, including people of color.
