

Project ECHO Half and Half Buprenorphine Waiver Training for Opioid Use Disorder

Physicians, PAs, and APRNs can register for this 4 hour webinar taught by clinical experts. Once completed, participants will receive the second half of the course.

For physicians, this webinar and coursework fulfills the required eight hours of training to apply for a waiver to prescribe buprenorphine.

For PAs and APRNs, this webinar and coursework fulfills the first 8 hours out of the 24 hour requirement and you will be provided with a link to the additional 16 hours of coursework.

CME

Physician Credit

Hennepin County Medical Center is accredited by the Minnesota Medical Association (MMA) to provide continuing medical education for physicians.

Hennepin County Medical Center designates this live activity for a maximum of *4 AMA PRA Category 1 Credit™*. Physicians should only claim the credit commensurate with the extent of their participation in the activity.

Other Health Care Professionals

Other healthcare providers who participate in this CME activity may submit their statement of attendance to their appropriate accrediting organizations or state boards for consideration of credit. Participants are responsible for determining whether this activity meets the requirements for acceptable continuing education.

Disclosure

All planning committee members and faculty for this educational event have reported no relevant financial relationships with commercial interests.

Certificates

Certificates will be provided to each participant after the program.

For additional information, please email Beth Ryan, MS, Project ECHO Coordinator: elizabeth.ryan@hcmcd.org

Funding for this initiative was made possible (in part) by grant no. 1H79TI081968 from SAMHSA. The views expressed in written conference materials or publications and by speakers and moderators do not necessarily reflect the official policies of the Department of Health and Human Services nor does mention of trade names, commercial practices, or organizations imply endorsement by the U.S. Government.

This project is supported by grant from the State of Minnesota Department of Human Services, Behavioral Health Division.
