

Pediatric Gender & Sexual Health Clinic

Clinic and Specialty Center, Level 3 Pediatrics, 715 South 8th St, Minneapolis, MN 55404
PH: 612-873-9360 F: 612-873-8429

Who are we?

We are a team of caring doctors, nurses, psychologists, social workers and support staff. Our mission is to care for children, adolescents and young adults who identify as gay, lesbian, bisexual, transgender, queer, gender-questioning or gender-nonconforming.

What do we do?

We provide full, gender-affirming care including:

- Primary care (e.g. checkups and vaccines)
- Mental health care (individual & family therapy, psychological evaluation and treatment with medicine)
- Puberty suppression
- Gender-affirming hormone therapy
- Referral to surgeons or specialists
- Referral to community help

What happens at the first visit?

You will meet with a doctor, a psychologist, and a social worker. The visit will last about 2-3 hours. We do not have to do a body exam or blood draw at your first visit if that worries you. We just want to get to know you and your family. We want to learn how we can best support you on your journey.

We ask that the adolescent fill out the following forms before the first visit:

- Recalled Childhood Gender Identity and Experience- Adolescent Version
- Gender-Queer Identity Scale
- Utrecht Gender Dysphoria Scale

We also ask your parents to fill out the following forms:

- Recalled Childhood Gender Identity and Experience- Parent Version
- AQ-10
- Child and Family Information Form

We collect the forms to make your first visit easier. Please answer the questions to the amount that you feel comfortable.

We look forward to meeting you! Please call us with questions before or after your visit.

Sincerely,

The Pediatric Gender & Sexual Health Team

****Rhamy Magid, MD** (he/him)

Pediatrician
