

# How to Schedule STI/STD Appointments at Hennepin Healthcare

- Call or text the Between Us phone 612-368-1611
- Between Us will ask for your name, what day/time works best, and what Hennepin Healthcare clinic you would like to go to.

*Between Us can assist with scheduling transportation and scheduling follow-up appointments*

# What Happens at an Appointment for STIs?

- Depending on symptoms there are a combination of testing options: urine test, blood test, and/or physical exam. Most common is a urine sample.
- Results are usually given within 24 hours.
- If you have a positive test your provider can give you a prescription for your partner(s) to bring to any Hennepin Healthcare pharmacy for free treatment, no appointment for the partner(s) needed.

*At your appointment you can receive condoms, birth control, treatment for STIs, and education. Just ask!*
